MEMORANDUM FOR THE RECORD

SUBJECT: Retirement - Tennent H. Bagley

- 1. The retirement of Subject, effected as a result of a memorandum from the Head of his Career Service stating that he is surplus to the needs of the Service and that his retirement will be recommended to the Director under the provisions of the CIA Retirement and Disability System pertaining to involuntary retirement, in no way implies an adverse action. Subject signed an application for retirement of his own volition in order to qualify for an immediate retirement annuity. The liberalized criteria for such separations was established by the Agency to parallel similar actions under the Civil Service Retirement System in accordance with FPM Letter No. 831-23, dated 10 December 1969.
- 2. Any inquiry received concerning the nature of the separation of Subject from the Agency should be confirmed simply as a retirement.

MEMORANDUM FOR: Tennent H. Bagley

SUBJECT

: Involuntary Retirement Under the CIA Retirement

and Disability System

- 1. This will confirm a previous discussion with you concerning the problem of a surplus in your career service of on-duty strength in relation to new reduced ceiling and the consequent need to effect a reduction in personnel. At that time you indicated your willingness to assist your career service in reaching its reduced personnel ceiling by accepting involuntary retirement.
- 2. Accordingly, and in order to establish the necessary conditions for involuntary retirement under CIARDS, I have determined that you are surplus to the needs of your career service and will recommend your retirement to the Director, effective 30 June 1972.
- 3. I urge you to contact the Retirement Affairs Division, Office of Personnel, where every effort will be made to provide whatever information and assistance you may need in preparing for your proposed retirement.

Recommendation for Promotion to GS-17 - Mr. Tennant H. Bagley

1. It is recommended that Mr. Tennent H. Bagley be promoted to GS-17. He has been in grade as GS-16 since June 1965 and has served as COS in Brussels since August 1967. His previous assignment was as Deputy Chief, SB Division.

2. The reasons for this promotion are amply covered in my fitness report of this same date. I have just returned from an extensive trip through the European area, during which I had a chance to see and talk with a very large number of officers

Pete Bagley is one of two whom I am recommending for promotion as a result. He is one of our very finest station chiefs, possessed of imagination, intellect and ability personally to handle operations which very few of his colleagues can match. He is one of those on whom the future of the Organization is going to depend, and I believe that the promotion is more than justified.

SUBJECT:

Mr. Tennent H. Bagley Promotion to GS-17

- 1. Mr. Bagley was promoted to GS-16 on 6 June 1965. At that time he was Chief, CI Group, SR Division. On 1 September 1965 he was appointed Deputy Division Chief, SR Division. As his fitness reports attest, his performance in that position was outstanding and when in May 1966 the Soviet Bloc Division was created he was named Deputy Division Chief of the new Division.
- 2. There is little that need be added to previous fitness reports in my evaluation of Mr. Bagley's current performance. It continues to be that of a dedicated and gifted officer whose energies and extensive substantive knowledge make a vital contribution to one of the top priority programs of the Clandestine Services. Much more important, in considering Mr. Bagley for promotion to the next level of the supergrades, is his potential for additional growth and responsibility. He would be capable now af taking charge of a field station, particularly one with

With time (he is forty-one) he will be capable of assuming the senior position in any division or staff in the CS. He is clearly one of the outstanding officers in our service.

MEMORANDUM FOR:

Mr. Robert W. Sheay

Secretary

Clandestine Services Career Service Board

SUBJECT:

14 00000

Tennent H. Bagley Promotion to GS-16

1. Mr. Bagley is without question among the best qualified of the senior officers in SR Division and is also one of the most competent counterespionage officers in the Clandestine Services as a whole. Few have had his preparation or his experience in the Soviet Bloc aspects of this field. After entering on duty in 1950 he was assigned to the Vienna Station

> SELET NEG CHY

14 00000

SR/CI to absorb this workload stems not only from Mr. Bagley's capacity for professional guidance but his effectiveness in leading and inspiring those under him.

- 3. Mr. Bagley's record to date reveals a high degree of specialization in counterespionage yet it would be misleading indeed to conclude that his professional interests and potential are confined to this field. His contributions to the broader problems of have been invaluable particularly in the way in which he has suggested new techniques for attacking tabroad.
- 4. I consider Mr. Bagley an outstanding officer to whom the Clandestine Services will turn for the exercise of still greater responsibilities in the future. He is fully qualified for promotion to GS-16. I urge that he be promoted now in recognition of the work he has done so far and the potential he possesses for a productive career at the top level of Clandestine Services officers.

MEMORANDUM FOR: Mr. Tennent H. Bagley

Chief, CI Branch, SR Division

SUBJECT: DODS-

DODS-Sponsored Orientation Program for Contact Division Field Officers

I wish to express my appreciation for your participation in our training program from 23-27. September 1963. On balance, this program, which was designed to familiarize 00/CD personnel with the general mission of the Clandestine Services and the particular problems of DODS, went very well.

Your presentation stood out as one of the highlights of the program and received unanimous commendation from the OO/CD officer-trainees. Your able exposition on a most important subject contributed heavily to the success of the program and is indeed much appreciated.

Promotion Recommendation - Tement II. Baglay

1. We recommend herewith that Tennent E. Bagley, incumbent of slot BO-216 on the T/O of EZ/P be promoted from GS-12 to GS-13.

2. Mr. Bagley is one of the best all arcend eperations officers the undersigned has ever worked with, and evinces in all matters he has been concerned with a deep and mature unterstanding of intelligence operations and a deep sense of responsibility and integrity. He has, since joining EE/P, been Chief of the CE Section, supervising the work of a staff of five, some of whom are of equal rank with Subject and have been concerned with Agency matters for many years.

Hr. Bagley erganised his section in a most efficient and tactful manner and succeeded in turning the work of his subordinates into channels of real value to the Branch, a job requiring so mean diplomacy and patience.

3. As a supervisor and as an operations officer Mr. Pagley has distinguished himself while at this Branch in a manner which clearly calls for his advancement to a grade which would only to commensurate with the extent of his responsibilities and his singular abilities to carry them out.

MENORANDON FOR THE RECORD

The request of Tennont Harrington Begley for permission to remain applicated by this Agency after marriage is approved subject to the followings

- 1. Subject's immediate supervisor will be notified by cable to counsel with subject regarding the serious effect the carriage will have in impairing what otherwise appears to be an outstanding sareer with this Agency. Subject, although young, has desconstrated exceptional ability and great promise and has been promoted well shead of others of his age bracket. Based upon his actions to date, it would appear subject might ultimately expect to attain a position of considerable importance and responsibility in this. Agency, if no inherent limitations develop. The proposed marriage places such a limitation on the use of subject, not only in particular parts of Europe, but in Headquarters as well. Certain elemenaces required of high level employees of the igency will be difficult to obtain if this marriage is contracted, and the limitations on the type of assignments which will be available to him will not subsuce his coreer development.
- 2. After receiving this counsel and giving it consideration, if subject continues in his desire to marry and contracts the marriage, he will be removed from Austria as soon as he can conveniently arrange for his spouse's visa. Following the marriage, he shall be withdrawn from the more sensitive elements of the Station's business.

Since Mr. Bayley is on daty in Washington, he did not receive the order until 13 November 1950.

br. Bagley was employed by this Agency on 2h July 1950 as a Research maly it assigned to the Advisory Council. Since reporting for duty, he has been in the Training Courses and will employ the Advanced Operations Course on 1 December 1950. During this period, however, it has been agreed that his qualifications could bent be utilized as an Intelligence Officer in Germany, and the papers are now in requesting his transfer to The Lew that purpose.

Request that Mr. Bagley's deferment from recall to active duty with the Marine Corps be arrenged on the grounds that his work in the Training Courses has shown his to be unusually well qualified for intelligence work in Germany and that wen of his caliber and besignound are still badly needed by the German Station. If this deferment can be arrenged, he will be sent to Germany as a 06-9 intelligence Officer at the earliest opportunity.

MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT

Tennent H. Bagley, GS-16, Employee Number 056043, DOB: 11 November 1925; Chief of Station; Career; Service Designation: D.

PERIOD UNDER REVIEW

: 1 April 1970 - 31 March 1971

MONTHS UNDER MY SUPERVISION: 4

42 months

OVÉR-ALL RATING

Strong

1. As Mr. Bagley completes approximately 42 months as Chief of Station Brussels, progress in Brussels remains uneven.

_!'^Y

B. The physical divisions within the official component of the Station have separated personnel and files in a manner which makes close teamwork against the target difficult. These divisions could and should have been corrected.

- Mr. Bagley has not always seen eye-to-eye with Headquarters on matters of method and emphasis, a phenomenon which has impaired operational progress. We accept that each Station Chief has the right -indeed, the duty -- to hold independent views and to express them with integrity (as Mr. Bagley has done), but believe that differing views could have been resolved more easily had Station reporting to Headquarters been less parsimonious.
- 3. To sum up, Mr. Bagley's abilities to conceptualize and to build viable models is truly outstanding, as is the exhaustively thorough manner of his staff work; his capability to translate his concepts into productive human endeavor has been less impressive. In spite of his considerable social and diplomatic skills, Mr. Bagley is essentially a reserved person who finds some difficulty in communicating with his subordinates.

In spite of the problems noted, problems which we perhaps overstress as a result of our high expectations, Brussels Station has made good progress during/this period and Mr. Bagley's performance has been STRONG.

COMMENTS on Fitness Report on Tennent H. Bagley
1 April 1970 - 31 March 1971

I agree with the fitness report's own suggestion that the "problems" it noted were overstressed: its negative content outweighs the positive by nearly three to one and is emphasized by its format and sentence structure. Because its overall effect belies the "Strong" rating, I believe that it creates a misleading picture, and therefore think it necessary to comment. Moreover, the report leaves the impression of a general failing in two specific areas which I am sure it did not intend to, since these are two areas which, during the two years since the preceding fitness report, have been

Outstanding

1. For this reporting period Mr. Bagley must be rated as Outstanding for the achievements of his Station, achievements in very considerable measure due to his personal vision of how

3. Although Mr. Bagley has not yet been completely successful in the organization

his innovative approach has resulted in enormous progress over the past year, and I have good reason to believe that, with the implementation of certain measures which he and I recently discussed, he will be getting much more

than any other station chief in Europe.

4. I was also impressed on my most recent visit, during the last part of April 1970, with what seemed to be an improved

communication between Mr. Bagley and his subordinates, both inside and outside of the installation. Pete Bagley's intellectual capabilities tend to outstrip those of most of his colleagues, but it does seem to me that he has dealt with this problem well and has thus been able to engender loyalty and cohesion among the members of his Station.

Recommendation for Promotion to GS-17 - Mr. Tennent H. Bagley

1. It is recommended that Mr. Tennent H. Bagley be promoted to GS-17. He has been in grade as GS-16 since June 1965 and has served as COS in Brussels since August 1967. His previous assignment was as Deputy Chief, SB Division.

2. The reasons for this promotion are amply covered in my fitness report of this same date. I have just returned from an extensive trip through the European area, during which I had a chance to see and talk with a very large number of officers

of two whom I am recommending for promotion as a result. He is one of our very finest station chiefs, possessed of imagination, intellect and ability personally to handle operations which very few of his colloagues can match. He is one of those on whom the future of the Organization is going to depend; and I believe that the promotion is more than justified,

MONTHS UNDER MY SUPERVISION:

OVERALL RATING

Strong

1. Mr. Bagley assumed his duties as Chief of Station on 13 September 1967. It is too early to assess the results of his stewardship; he established in advance a timetable for building up a structure and it is not yet clear to what extent these assets are going to be productive against major targets. However, there is no doubt that Bagley has tackled his job with originality, energy, and enthusiasm. A good indication of these qualities is that, alone among our European Chiefs of Station, Bagley has himself in less than

two years.

- 2. Bagley's accomplishments must be measured in light of the fact that he has had a weak Deputy Chief of Station, and that several of the officers in his small Station have been of quite modest calibre. The restaffing of the Station which is taking place this summer should result in a considerable leap forward.
- 3. On the personal side, Bagley has all the qualities which we could ask for in a Chief of Station. He is totally dedicated, incisive and articulate, a pleasant companion and a gracious host. I rate his overall performance as Strong.

Year of Birth: 1925

Service Designation: D

Grade : GS-16 No. of Students

EOD Date

COURSE OBJECTIVES, CONTENT AND METHODS

The COS Seminar is aimed to prepare prospective Chiefs and Deputy Chiefs of Station and Chiefs of Base for field assignments. Emphasis was upon the difficulties confronting Chiefs of small or medium-sized installations, since they must handle a peculiarly wide range of problems. Included were case. studies serving to remind outgoing chiefs of various operational approaches and techniques, but more time was devoted to policy, coordination, management, reporting, and administrative responsibilities of the Chief of Station, both within CIA and in the government at large, at home and abroad. Special attention was given to counterinsurgency.

The bulk of the course is given in lectures and question periods conducted by officials responsible for the missions, functions, programs, and services discussed. A few key items of suggested reading are included, and bibliographies of suggested reading tailored to the individual's assignment are offered for those who want them.

ACHIEVEMENT RÉCORD

This is a certificate of attendance. No further assessment of individual capacity or performance is made in this course.

Mr. Bagley's performance over the period continued to be outstanding. This was his first full year as general deputy during which he still retained responsi-

Nevertheless, during my frequent absences, Mr. Bagley was called upon to act for me and he did so most effectively. Those aspects of his work involving decisions on expenditures of both funds and manpower show him to be sufficiently cost conscious yet this is tempered by a better than average wareness of the operational value to the Agency (or lack thereof) of such expenditures.

Mr. Bagley has been selected to become COS of a large

In my view, this appointment is additional testimony of the high regard in which he is held by his professional colleagues. In recognition of his outsanding work in SB Division, Mr. Bagley has been recommended for promotion to GS-17.

MEMORANDUM IN LIEU OF FITNESS REPORT - 1 April 1965 - 31 March 1966

SUBJECT:

BAGLEY, Tennent H.
Deputy Chief, SB Division, DDP
DOB 11-11-25, GS-16, SD:D
Employee Serial Number - 056043

From the beginning of the reporting period until 9 September 1965, Mr. Bagley continued as Chief, Counterintelligence Group, SR Division. Mr. Bagley was then appointed Deputy Chief, SR Division and has remained in that position. He has served as Acting Division Chief on several occasions including a period of two months in 1965 when I made an extensive visit to FE Division stations.

In fact, his appreciation of their strengths and weaknesses enabled him to place the very best of his officers in key positions in the CI Group where for the most part they remain today. Their performance is still characterized by the high sense of discipline and professionalism imbued in them by Mr. Bagley during his service as their chief. I have also been struck by the spirit of loyalty permeating this group even though Mr. Bagley's associates were often driven at a pace which would have severely tested the supervisor/subordinate relationship in most other units. At the same time, he afforded the senior officers of the CI Group every opportunity for the exercise of initiative and imaginative leadership at their own levels. On the

SERVE

other hand, he has little patience with the "time server" who is not prepared to exert himself either to acquire by self study the background he shouldhave to do his job properly or if he has the background to use it effectively in his work.

Moving into the responsibilities of deputy division chief, Mr. Bagley has demonstrated to my satisfaction that he was the best possible choice for this position. He has easily mastered those substantive areas of the division's work with which he had no previous association or encountered only occasionally as Chief, CI Group. This is especially true of the reports and requirements area and of certain collection activities.

Mr. Bagley's performance in the position of deputy chief has indeed been outstanding. I would accord him particularly high marks for the energy and enthusiasm he has displayed in shaping and expanding the training and orientation programs conducted by the division as one means of conveying to CS officers outside the division some understanding of the

sitive to costs whether one is speaking of funds or manhours. He does not lightly undertake the expenditure of either. My very positive evaluation of Mr. Bagley's potential for senior leadership in the Clandestine Service has not changed. He is a magnificent intelligence officer whose keen intellect and rapidly growing appreciation of the "art of the possible" mark him as one of the best officers in our service. It is my intention to recommend him for promotion at an early opportunity.

BAGLEY, Tennent H. Operations Officer SUBJECT: 056043 Branch Chief DDP/SR/CI DOB 11-11-25, GS-15, SD:D

Mr. Bagley still occupies the position described in his last fitness report of 30 April 1964. The quality of his performance continues to be <u>outstanding</u> in all respects including cost consciousness. He has been recommended for promotion to GS-16. This recommendation should receive early consideration. There are certainly very few officers in the GS-15 level who are more deserving in terms of their executive potential and their contributions to the mission of the Clandestine Services.

BACLEY, Tennent H.

SECTION C (Continued)

This substantive background lends a quality of toughness and realism to his work as a planner and supervisor which is matched by very few others in the Clandestine Services.

As a supervisor, Mr. Bagley distinguishes himself by the ability he has to be immensely interested in the details of his subordinates' operations while at the same time leaving to them sufficient freedom of decision and action to carry out their programs without undue interference. He retains control over a large element (there are four branches and 55 employees in the group) and several first class senior subordinates by virtue of their respect for his competence and substance. More important, he infuses them with the same sense of dedication and deep enthusiasm for his work he himself possesses.

In his position Mr. Bagley also handles certain sensitive operations directly. All of the qualities of imagination, penetrating insight, energy and professional knowledge which can be seen in his work as a supervisor are present in his case work. He has also demonstrated that he is a superb agent handler with a fresh, common sense approach to tradecraft problems. I have also seen him display a constant readiness to sacrifice his own comfort, leisure and private affairs to the demands of the operational situation. He is not long discouraged in the most difficult circumstances and his natural optimism, alert mind and special kind of clan work constantly to discover new avenues of approach to whatever operational problems he faces.

I would describe his cost consciousness by noting that it is simply foreign to his nature in both a personal and professional sense to use funds thoughtlessly. He has demonstrated that he considers the expenditure of operational funds must be related to a commensurate gain in terms of our operational objectives.

- 2. Subject's weaknesses, which because of his outstanding ability and promise are rather magnified in this assessment, lie mainly in his occasionally faulty human relations. Subject rejects much of the social life which is customarily associated (although not necessarily for the best) with Kubark field posts. His interests, aside from his work, are primarily intellectual and artistic. These interests, coupled with his at best pro forms fulfilling of the customary Kubark social protocols, definitely weaken his relationship with the rest of the staff.
- 3. Subject comes from a service environment and was himself a Marine officer when very young. This early environment and training has, probably without Subject's being aware of it, caused him to expect of others a devotion to duty and self discipline which is rarely to be found. These high standards have caused Subject to discount to some degree the abilities of the clerical staff and, to a lesser degree, other junior personnel.
- i. A second weakness probably results from Subject's consistently successful career. He has, without any effort on his own part, frequently if not invariably found himself closely associated with "management" and regarded by the "management" as being unusually talented. This has caused him to expect his work to receive special attention which is not always warranted. When this does not happen, he tends to pout.
- 5. There is no question in the writer's mind but what Subject would be an outstanding addition to any office in the Agency. He has, as far as can be seen now, an unlimited growth potential. His minor faults will correct themselves with maturity and increasing experience.
